

JETPUBS

Manuals & Training Materials

Training Materials

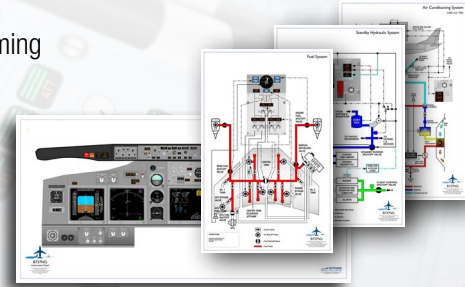

Let us handle the hassle of maintaining, printing, and distributing training materials. We are happy to customize each training kit for your pilots while ensuring consistency across all your uniquely branded elements.

- We do everything for you. Just supply the files
- Everything is branded with your logo and information
- Everything is fully customizable for FREE
- We prepare and ship directly to your student or facility
- We guarantee consistency between all students and courses

Graphics

Our high quality posters and schematics are customized to match your exact configuration at no charge to you. We also provide complete lamination, grommets, mounting, and framing services all in-house, so you get the best quality at the fastest turn times.

- Cockpit posters
- Wall murals
- Systems schematics
- Lights & switches guides
- Static trainers

JETPUBS

Manuals & Training Materials

We make your life easier.

Our customers are great at what they do. For our airline customers, it's flying from point A to point B. For our training center customers, it's instruction and simulation. What's never in their core area of business? Manuals and training materials. That's where we come in.

We make our customers' lives easier every day by providing exceptional, tailored service in the areas of manuals and training materials.

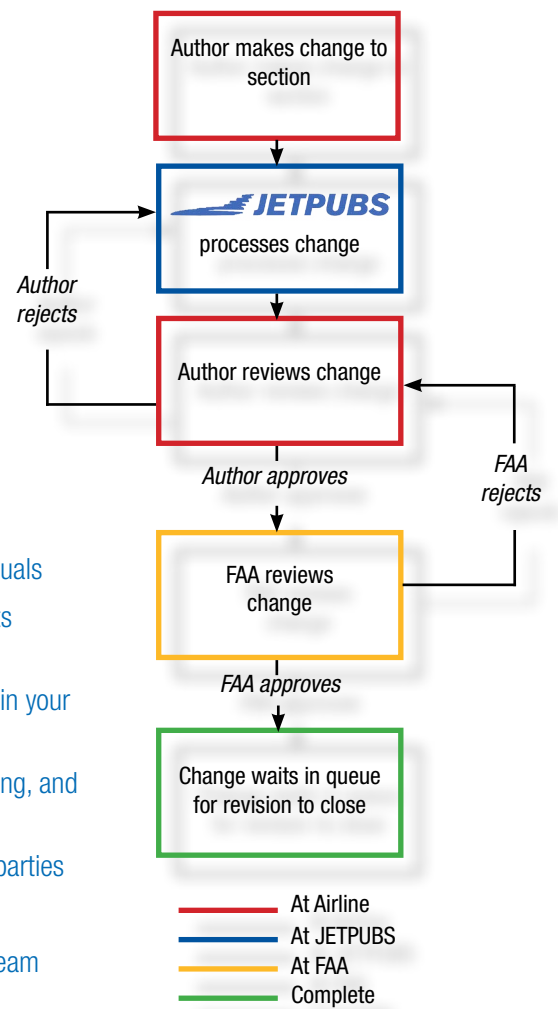

With JetStream, all manual authors have to do is author—nothing else. Authors focus only on the content and submit changes to their manuals, while JETPUBS works to monitor consistency and regulatory conformance to ATOS, IOSA, and other standards.

Why Jetstream?

- Instant, easy changes to author's manuals
- Complete ATOS, IOSA, and other audits generated in seconds
- Cross referencing among all manuals in your airline
- Simplified SMS data collection, reporting, and tracking
- Archived communication between all parties
- Guaranteed consistency
- Personalized support from JETPUBS team

*Responsive.
Awesome.
Real.*

These are just some of the words our customers use to describe us. Why? Because they're true. When we place the highest importance on you, the result is more than just good, it's fantastic.

We love to give you a completely tailored experience rooted in years of aviation experience.

Please give us a call to speak to a real person whose highest priority is to make your life easier.

*We've been making our customers' lives easier for the past twelve years.
Let us do the same for you.*

Oliver, Corporate Pooch

Tailored Safety Management System Offerings

Safety, accountability, and responsibility come naturally to you —so should your SMS. JETPUBS makes it easy to unite all aspects of SMS by implementing safety practices into your manuals, so you can focus on creating a safer airline.

We will help you create, organize, and implement the following:

1. Safety Policy & Objectives

- Plan implementation and SMS documentation
- Establish safety accountabilities
- Verify setup and compliance

2. Safety Risk Management

- Hazard identification
- Continual manual auditing
- "Hot" letter of compliance
- Risk assessment and mitigation

3. Safety Assurance

- Monitor and measure safety performance
- Set up anonymous tipline
- Manage change and verify accountability
- Generate custom safety reports

4. Safety Promotion

- Training and educational materials
- Safety communication
- Industry-wide data circulation
